Lady Visas Madame or Mystery

Mother of ~~Visas~~ the City

Black widow strange and cruel

But is it true?

None can agree on any one description

Some see her as a wizened old crone  
in <sup>st</sup> duchess gown

Others claim she is youthful despite  
her ~~years~~ untold years, but pale & stained

~~rumors of the city~~

The enigma that is Lady Visas breeds  
rumors She made deals with devils  
She's the last Lich Lord

She feeds on hearts <sup>or sates her hunger</sup> and never  
touches the ground.

But all agree <sup>nothing</sup> ~~very little~~ happens in her city without  
her grace.

Her silence over the last year has been deafening.

In the deep dark splendor of Axx Regnatrix one of  
Lady Visas Hand maidens bows to the floor their elongated limbs covered in  
a waterfall of black lace. They leave for the Pillar Meridian.

Saint Desir is to make an announcement and The Lady's hands will move
